

Horizon 2030. Renewable H₂ production

Maximum potential Scenario

This scenario includes the total figures incorporated by the agents participating in the Call for interest process.

≈ **7.9 Mt**
in 2030
Identified
renewable H₂
production

Horizon 2030. Renewable H₂ consumption

Maximum potential Scenario

This scenario includes the total figures incorporated by the agents participating in the Call for interest process.

≈ 1.3 Mt
in 2030
Identified
consumption of
renewable H₂
